Why do so many people not want this atomic train to go through?

1... I ~~LL~~ TELL you why. [First of all, you are carrying nuclear waste.

If there would be an accident, an explosion could wipe out whole cities at a time. Secondly, from what I've ~~learned~~ learned, this mountain, where you are planning to bury the waste could be on a major fault<sup>4</sup> line. If there~~re~~ was an earthquake, it would all explode, killing ~~all~~ all of the innocent people who live near~~ly~~.

YUCCA Mountain. [Third<sup>ly</sup>, how would you like to <sup>be</sup> in the history books saying that it was your fault for so many deaths?

Please think about others before you do something so careless and

1 cont. dangerous. [PLEASE KEEP THE WASTE WHERE IT IS!]

Thank<sup>4</sup> You
